MEPF DESIGN-BUILD ENGINEERING SERVICES ENERGY AUDITING & ESCO,PMC

EXECUTIVE SUMMARY

Brief History

FIVE M ENERGY Pvt. Ltd. was incorporated under the company act **1956** by the Registrar of companies **DELHI/HARYANA** vide certificate of Incorporation no. **55-55564 of 1993-1994** dated **14-Oct-1993**. The name **FIVE M** is based on

The Visual elements which put together makes a hand inspired from Hamsa. 'Hamsa' Means 'five'. Its regarded in all faiths as a protective talisman that brings good fortune, health and happiness. Its also symbolizes chakras, energy flow in the body, the five senses and the mudras that effect them.

FIVE M ENERGY Pvt. Ltd. is functioning for the last more than Thirty Five Years in Total Customized Engineering Solutions as leading Mechanical, Electrical, Plumbing & Fire (MEPF) Design-Build Engineering/ SOLAR Consultants/Energy Auditor/ESCO, Review & Project Management Consultancy Providers. FIVE M is an Engineering Consultancy and Contractual Organization offer wide range of technical services in MEPF (Mechanical, Electrical, Plumbing & Fire), Energy & Water Audit, ESCO, Renewable/Solar Floating/ On Grid Power Generation, Utility Engineering Survey Services (Smart City) & Project Management consultancy for the last more than forty year.

With highly experience Professional Engineers as "Core Technical Management Team" you can trust "**FIVEM**" to design at the optimum standard and execute the complete the Project with superior level of quality under "**Single Window**". The group is a multi disciplinary Engineering Contractual Organization having an impressive team of highly Technical professionals in all area of Engineering field and already working with Leading Architect, Govt./Private/ Business Houses, Builders & Developers.

We undertake any project from Concept to Execution for following Related Services:-

- **MEPF Design-Build Engineering Services :** * HVAC System * Electrical Distribution System * Plumbing & Sanitary System
* Fire Fighting & Detection System * Rain Water Harvesting System. * Water & Waste Treatment Solutions
- **Energy Auditing & ESCO ;** * Energy Audit * Water Audit * Electrical Safety Audit * Air Quality Audit.
- **Solar / Renewable Power Co-Generation Consultancy and Execution.**
- **Project Management Consultancy Services.**
- **Survey-Engineering Services (Smart city)**
- **Physical Workshop/ Training- Energy Saving & Conservation**

ABOUT US:-

Our Core Technical Team are:-

- **Surender Singla**
- **Praveen Kumar Sood**
- **Mrs Pamila Singla**
- **R.K .Kohli**
- **Namasya Singla**
- **Dr Jatinder Katiria**
- **Shashi Sood**

The promoter of the Company **Mr. SurenderSingla** a Graduate Electrical Engineer and BEE Certified Energy Auditor, Charter Engineer and Valuers having more than 40 years of experiences in the field of Manufacturing, contractual & consultancy in the various sector of MEPF Design –Build Engineering Services, Power System, Energy Saving and conservation, Water & Wastes Water Treatment Solution & Saving, Renewable /Solar Power Generation.

After graduation he has joined National Thermal Power Corporation and served for more than 5 years as senior executive. In the year 1981 established FIVE M Group as Engineer Entrepreneur for the manufacturing of Power Condition Equipment and its accessories namely **Transformer/Lamination/ Electromagnetic Relay / UPS/ Invertors in Okhla Industrial Area New Delhi 110025** and later on added the **division of MEPF Design- Build Engineering, Energy Auditing, conservation & Waste and Wastewater Treatment Solutions**

In the year 2012 Mr. SurenderSingla Established another platform under the brand name of VENZA for Design, Supply Installation and commission of **Waste & Waste Water treatment Solution** for any capacity and Technology.

Mr. Praveen Kumar Sood Director of Company is having more than 40 years of experience in battery storage & Solar Technologies and Lighting Expert. Because of his vast practical experience and knowledge actively associated in various organization and association he shared his experience through Physical Workshop/Training Session.

He is a Prominent speaker and master trainer for various program of Renewable energy, Energy Efficiency, Electrical vehicle and Battery innovation and technology.

Some of the workshop and Training Session conducted by him are at Tery, PHD Chamber of Commerce & industries Ludhiana, ILZDA, MSME Development of Okhla new delhi, UBM India (event), Indian Society of lighting engineering, ELCOMA, ESSCI and SOLAR/ Media (U.K).

He is also being associated with some of prestigious organization like Solar Energy Society of India, ILZDA, ELCINA, Indian Battery Association, ISLE.

Director of the Company **Mrs Pamila Singla** MSC from Delhi University have experience of more than Thirty Year in office management, Marketing Promotion & Monitoring of Project.

Mr. R.K.KOHLI, Graduate Electrical Engineer having more than Thirty Five years of experience in the field of MEPF Design-Build Engineering services including Energy Auditing and conservation.

Mr ShashiSood is graduate BE Electrical, MIE, PG DIT, IFFT having experience of more than thirty one year in the field of manufactures export and execution of solar power project.

Dr. Jatinder Katiria is a PHD in Thermal Engineering having more than 10 year experience in the field of Bio mass, Bio Energy, alternative fuel and internal combustion Engine.

Director of the company **Mr Namasya Singla** Graduate in Pol(Hons) from Delhi university. Having an experience of marketing promotion & Site Supervision of project.

COMPANY SALIENT FEATURE

FIVE MEmpanelled as Consultant with

- **BUREAU OF ENERGY EFFICIENCY (BEE), NEWDELHI**
- **PETROLEUM CONSERVATION RESERARCH ASSOCIATION (PCRA), NEWDELHI**
- **PUNJAB ENERGY DEVLOPMENTAGENCY**
- **BSES YAMUNA POWERLTD.**
- **BSES RAJDHANI POWERLTD.**
- **RELIANCE ENERGY LTD.NOIDA**
- **DAKSHIN HARYANA BIJLI VITRANNIGAM**
- **UPSEB**
- **UREDA**
- **HAREDA**
- **Uttar Pradesh State Designated Agency(UPSDA)**

FIVE M Group-Proudly working in Consortium with

- **CSACORPORATE PVT LTD**
- **M3 SOLAR PVT.LTD.**
- **IMAGINATION INFRATECH PVT.LTD.**
- **GRUP-ISM PVT.LTD.**
- **NEXGEN TEKFIN CONSULTANTS PVT.LTD.**
- **MGROW TECHNO SYSTEMS PVT.LTD.**
- **MEPICON INDIA**
- **MEPICON THAILAND**

VISION & COMMITMENT

Vision _____

To be recognized as the leading Engineering Consultant & Contractual Organization for Total End to End Engineering Solution.

Commitment _____

Every Day in Every Way, We are Serving Better and Better and Quality is not just a world for us.

SCOPE OF SERVICES

As Mechanical, Electrical & Plumbing (MEPF) Design-Build Engineering Services:-

FIVE M is a multi disciplinary Engineering Consultancy & Contractual organization having an impressive background in this field. The group has rich and varied experience in the field of Build Engineering, Consultancy and project management for the past 40 years.

We delivered Complete Mechanical, Electrical and Plumbing (MEPF) Design –Build Engineering and construction services by well-trained dependable Professional.

Our team implements site –Specific Program Created to maximize overall cost effectiveness, Quality Craftsmanship and on site safety under “**Single Window**”.

With team of Professional an experience Engineer for more than 40 years in a team, you can trust **FIVE M to perform at the optimum standard and to Completion and execution of Project with superior level of Quality.** By virtue of **FIVE M** being Bureau of Energy Efficiency (BEE) Empanelled Accredited company of Delhi the **MEPF Design-Build Engineering Services and Renewable Power Generation** are carried out with a view to save Energy wherever possible and then carefully co-coordinated throughout each phase of project implementation.

We can also provide our valuable suggestion as “REVIEW CONSULTANT” for all the MEPF Engineering Services and substantially reduce the overall cost of the project and provide complete detail Engineering, BOQ up to the accuracy of +/- 5% .

We would also like to share that our group company Mgrow Techno System Pvt Ltd under the Brand name of “VENZA” are providing comprehensive and integrated solution from concept to commissioning for Water and Waste treatment solution.

We as an Engineering services Consultancy & Contractual Company provide all aspects of **Design & Build services including concept planning, Design reports, Design drawings, Working drawing, Specification along with schedule of quantities, Cost, Estimates, Checking of shop drawings, Periodic site visit and helping in Hand over the system after testing and Commissioning.**

The company has sufficient committed and experienced professional like **Design Engineers, Site Engineers, Draftsman, CAD operator,** Site Supervisors and support office staff.

SCOPE OF SERVICES AS MEPF CONSULTANT

- We provide all type of Mechanical, Electrical & Plumbing (MEPF) Design Engineering Services consultancy
- We interact with you and collect all your requirements for proper Planning and designing of the systems as per prevailing byelaws based on the survey drawing and soil investigation report furnished by Client/Architect.
- We prepare and submit detailed Layout Plants and Drawings for obtaining Statutory Clearance. We shall provide Technical Assistance in obtaining the statutory approval from the concerned authority.
- We prepare Bill of Quantities and Cost Estimate based on the Drawing for plumbing and Sanitary, Fire protection and Detection, External and Internal Electrification, HVAC, Rain water Harvesting, Treatment Plants, Solar Floating & on Grid Plant as mentioned above. All our estimates shall be based on prevailing market rates.
- We prepare Tender documents comprising of general condition of contract, special conditions of contract, Technical specification, Bill of Quantities etc. for various disciplines.
- We assist you in the process of pre-qualification of Contractors.
- We issue the tenders to the pre-qualified contractors and also collect the completed filled tenders from them.
- We attend the pre-bid meeting and clarify the queries of the contractors.
- We assist in evaluation of tenders and give our recommendation for award of contract.
- After award of work we shall help in scrutinize the program of works furnished by the contractor and furnish our comments.
- We check and verify the Shop Drawings prepared by the respective services contractor before start of actual execution Work at site.
- We be visiting the site as and when required by Client/Architect to check the quality of work.
- We help in Testing and Commissioning of systems for installation before taken over by the Client for their beneficial use.
- We help in obtaining the final As Built Drawing from the respective service contractors before closing the contract.

MECHANICAL HVAC SYSTEMS

FIVE M provide facilities with Reliable, cost effective HVAC design/Build solution. We have gained a reputation as the premier Service provider in our Industry, and have developed a name for ourselves by creating innovating HVAC and Energy performance solution.

Our focused approach to project planning, managing expectation, Service delivery, and guaranteed results sets us apart from other Mechanical HVAC provider. Our strict attention to details guarantees and consistently meet and exceed your expectation every time.

Additionally, FIVE M provides comprehensive sustainability and green solutions design to help clients attain Green Building certification, lower energy usage a utility bills, and reduce carbon emission.

ELECTRICAL SYSTEM

FIVE M offers Electrical design, Engineering and installation services for Projects of all sizes, Scope and complexities. Our team has experience in analyze, design, specification and installation services for both new construction and renovation projects across a verities of market.

We approach each project skillfully and carefully in order to meet the specific requirement of our customers. We pay attention to the details and to the quality of our given installation in an effort to exceed our customers' expectation.

As a multi-disciplinary firm with in-house experience spanning not only Electrical but also in mechanical, plumbing, and controls, FIVE M can provide turnkey solution for a diverse range of needs.

PLUMBING SYSTEM

FIVE M Offer Plumbing capabilities including systems Engineering and Design – Build any Turnkey Project Services.

FIVE M Plumbing Engineering Services Deliver Reliable solutions for Customers across a variety of markets. Our capabilities including a full range of plumbing and process piping system, design, an implementation for both new constructions and renovation projects of all sizes, scope, and complexities.

As a Multi-Disciplinary firm experience spanning not only plumbing but also in mechanical, plumbing, and controls, FIVE M can provide turnkey solution for a diverse range of needs.

FIRE FIGHTING & DETECTION SYSTEMS

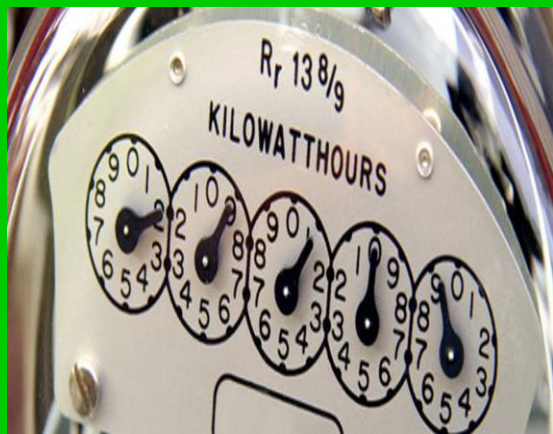

FIVE M has experience along with the Technical capabilities to design, install and maintain a full spectrum of fire protection system and keep them in peak condition.

Fire detection option includes; flame detection, Heat detection, smoke detection, air supplies, and cable and digital sensor linear detection. FIVE M represent some of the most respected detection and fire alarm manufacture in the country, can customize any system to meet individualized fire detection needs. Fire detection is a critical step in fire protection.

FIVE M offer a properly functioning well-maintain fire detection System can reduce or eliminate a risk before it becomes a problem.

ENERGY AUDITING & ESCO

FIVE M Accredited BEE approved Energy Auditor an expert can help customers better understanding today cost – energy saving and conservation option.

FIVE M have conducted energy/water Audit study and propose energy potential saving and conservation measure in variety of project like Hotels, Hospital, commercial and Residential complexes ,industries and Railway Station etc.

As a multi-disciplinary firm and by virtue of a MEPF Design –Build Engineering Company, we have a long wide experience of Designing and implementing energy/water conservation measure. We also work on **ESCO** mode on the basis of Energy saving and conservation recommendation as per Energy Audit Report.

PHYSICAL WORKSHOP/ TRAINING

FIVE M ENERGY Provide extensive physical Workshop/ Training Sessions on “Energy Saving and Conservation”.

By virtue of we being BEE Empaneled ESCO Company-Our Workshop/Training Session will Demonstrate case study where we have conducted energy audit study, its implantation and Monitoring & Verification.

Our work shops targeted at major implementing stakeholder and policy makers can accelerate to make Atmanirbhar bharat as per our honorable PM’s vision to make India once again “VISHWA GURU”. These would also lower cost of providing various services using digital platform and make our industry more globally competitive with lowest carbon footprint of various products.

SURVEY-ENGINEERING SERVICE

FIVE M offer Subsurface utility Engineering Survey in the area of **Street lighting**, HT/Grid/LT Electrical distribution system and water distribution and treatment system for any commercial establishment like Smart City, Township, or big commercial complex.

As a multi-disciplinary firm with in-house experience from roads and power lines, to where water intersects your life, we make it all work and prepared a Prefeasibility detail project report covering the Assets Deficiency, BOQ, Preparation of NIT with all specification and layout with GPS Co-ordinate for implementation for the up gradation an implementation water, drainage and street lighting system specially in **SMART CITY PROJECT**.

SOLAR FLOATING/ ON GRID

The Global demand for energy is growing and FIVE M, with experience and will continue to do in the field and provided expertise for the development of Renewable, Solar Floating/ On Grid proper.

We provide innovative solution as needed as per site condition, feasibility and required and accordingly prepare a Solar Floating / ON Grid & Prefeasibility / Detail Project Report for Renewable & Co-Generation as suited to environment.

PROJECT MANAGEMENT SERVICES

FIVE M Project Management Company is values driven Business consulting firm that advises and execute complex and strategic initiative, helping Organization overcome challenges and break new ground in the respected project of MEPF Renewable & ESCO.

FIVE M family of deeply carrying, passionate business professional, technical experts provides exceptional Project leadership to transform strategies and solution into sustainable results.

Whether it is a "Problem" or a "destination" we will work side by side with you to help navigate obstacles, rich your goal and sustain performance.

WATER AN WASTEWATER TREATMENT

FIVE M know-how, expertise & Experience provides completes **Water & Waste Water Treatment Solution** from concept to commissioning. We have a facility to provide a Walk through survey at the initial phase and critically analyze specific requirement of the client and accordingly design the Treatment system.

Our Group company Mgrow Techno system under the brand name of **Venza** are executing as contractor for water and waste water treatment plant of any capacity and technology as per design.

AS PROJECT MANAGEMENT CONSULTANT

PHASES OF DESIGNATED SERVICES

1. PRE FREQUENCIBILITY REPORT
2. DESIGNPHASE
3. DESIGN DEVELOPMENTPHASE-
4. IMPLEMENTATIONPHASE
5. POST IMPLEMENTATIONPHASE-

DESCRIPTIONS OF DESIGNATED SERVICES

The Project Management Services shall provide Total Project Management services in the following areas:-

- Scope Management
- Time Management
- Quality Management
- Material Management
- Cost Management
- Safety Management
- Communications Management
- Site Supervision
- Value Engineering
- Energy Saving & Conversional

AS AN ENERGY AUDITOR & ESCO

Detailed Energy Auditing

We are providing following Energy Audit Services:

- Walk Through Survey for preliminary audit
- Detail Energy Auditing
- Implementation of Energy Conservation Measures(ECMs).
- Implementation in ESCO-Mode.
- Electrical Safety Audit
- Water Audit
- Air Quality Audit

AS AN ENERGY AUDITOR & ESCO

DELIVERABLE

Detailed Energy Audit Report (DEAR) shall contain the following information:-

1. Methodology adopted for the study.
2. Present energy scenario of the building/ Complex.
3. Detail analysis of the data obtained through field visits, trial measurements by portable gadgets, discussion with concerned personnel etc.
4. Recommendations for energy saving options in all possible areas with cost-benefit analysis.
5. Technical Specification for any retrofit options.

List of suppliers/manufacturers of energy efficient technologies.

SCOPE OF SERVICES AS PHYSICAL WORKSHOP/ TRAINING SERVICES

FIVE M ENERGY Provide extensive physical Workshop/ Training Sessions on "Energy Saving and Conservation", Renewable energy along with new field such as energy storage & electric vehicles.

By virtue of we being BEE Empaneled ESCO Company- Our Workshop/Training Session will Demonstrate case study where we have conducted energy audit study, its implantation and Monitoring & Verification.

We interact with you and collect all your requirements Objective for proper Planning and designing the Workshop/ Training Session.

Topics to be covered

1. Energy Efficient Street light with CCMS and lighting Controls.
2. Energy Efficient Motors, Energy Energy Efficient Pumping System with electric motors, Sewage pumping System, Diesel pumps and Energy Efficiency measures in pumping system etc.
3. Points to be considered while purchasing new motor or new pumping System (BEE Star rated motors and pumping system.
4. Electric Vehicles (Cars, buses etc.) and charging station facilities.
5. Use of Solar PV system (Solar Rooftop Power Plant).
6. Any other topic on energy & Environment

To begin with energy conservation makes a lot of economic sense and reduces production costs of various services resulting in lower CO2 emmissions in line with UNDP Sustainable development goals.

In order to achieve above purpose, it is very essential to disseminate successful case studies of various technological options today along with sensitizing all stakeholders on various issues that arise while executing Solutions.

Renewable energy & energy conservation technologies work in tandem along with new fields such as energy storage & electric vehicles. Renewable energy based decentralized DC Charging infrastructure would empower our gram panchayat to create a new generation of techno-entrepreneurs including women self help group.

Our work shops targeted at major implementing stakeholder and policy makers can accelerate to make Atmanirbhar bharat as per our honorable PM's vision to make India once again "VISHWA GURU". These would also lower cost of providing various services using digital platform and make our industry more globally competitive with lowest carbon footprint of various products.

Such workshops shall give us unique opportunity for one to one interaction with our audience where in our internationally and locally known experts would answer all queries that arise during subject event to the best of our capabilities.

We look forward to some of the following benefits for workshop attendees which would be a continuous evolving program.

- Available energy efficient & renewable energy technologies.
- Increase in measurable productivity
- Change energy usage trend in buildings & using modular construction.
- Develop team camadeire which is very much essential for faster results and make everyone a stake holder in this gigantic effort.
- Measurable improved workshop environment and better public involvement to benefit our society.
- Ignite passionate young minds to develop local solutions based on their resources and culture rather than adopt ideas not suitable for their areas as each areas has unique characterization in entire Indian sub-continent.

To fulfill this objective, we normally planned and organize workshop (minimum 4 hours duration) by handholding with a Organization for capacity building of Target audience.

BASIC APPROACH AND SCHEDULING

- No. of Participant – 30-50 No.
- Duration of workshop – 4 hours
- Workshop Schedule
 - Registration/ Attendance - 9.30AM-10.00AM
 - First session – 10.00AM-11.30AM
 - Second Session – 11.45AM- 1.15PM
 - Practical Session – 1.30PM-2.00PM
 - Q&A – 2.00PM-2.30PM
 - Lunch – 3.00PM-3.30PM

- Project Co-ordinator – Surender Singla – First Session
- Qualified Trainer – Praveen Kumar Sood – Second Session
- Workshop Venue – Preferably Conference Hall

MAIN FEATURE OF OURS WORKSHOP TRAINING ARE

1. To discuss case study in the both Theoretical Session.
2. To demonstrate practicality with the aid of testing equipment the authenticity of energy efficiency equipment/ fixture. It will also display how to check the technical specification of equipment/ accesses at the time of purchasing.

RENEWABLE- SOLAR FLOATING/ ON GRID POWER GENERATION CONSULTANTS

We can design, build & operate successfully Project in wide range of Technologies/ Capacity In the Field of Renewable Solar Floating & ON Grid and OFF Grid Floating application. As Consultant we fully understand and having complete knowledge in related to Procedural and regulatory matters. This will include preparation of technology status reports, evaluation reports, feasibility reports, complete technical specification, cost analysis, field performance analysis and DPR for end-use specific application. Organizing and attending of technical meetings and interaction with various stake holders.

Our Services from "Concept to Commissioning" for following Renewable Power Generation Projects.

- **Solar OFF GRID/GRID Power Plant**
- **Solar Floating Plant**
- **Bio Mass Power Plant**
- **Waste to Power Generation**
- **Wind Power Plant**
- **Hydro Power Station Plant**
- **Bio Fuel Application**
